TERMS OF REFERENCE

Background

This interrelated web of challenges being faced by the state of Assam regarding environmental and biodiversity conservation needs urgent solutions. To support the Forest Department of Assam in its endeavour to effectively manage its forest and biodiversity, the French Development Agency – Agence Française de Développement (AFD) and the State Government of Assam co-funded “Assam Project on Forest and Biodiversity Conservation (APFBC)”. Phase – I of the project was implemented between February 2012 and May 2019. Phase II of the project commenced in August 2019.

The Assam Project on Forest and Biodiversity Conservation Society (APFBCS), a Special Purpose Vehicle created by the Government of Assam and registered under the Societies Registration Act is mandated with overall execution, management, and coordination of the project activities in Phase II through a Project Management Unit (PMU) established to implement the project. Project implementation sites - Forest Divisions and other entities – would be considered Field Implementation Units (FIUs). The PMU is supported by technical assistance from a Project Management and Monitoring Bidder (PMMC).

The overall vision of the project is that it contributes through the Forest Department to the conservation of nature for a healthier ecosystem and happier communities. Participatory biodiversity management, sustainable livelihoods of communities dependent on forests and biodiversity, and institutional strengthening are key objectives under Biodiversity Conservation. These actions would support larger goals under the Conservation of Ecosystems component and the overarching vision of the project.

Objective

India has enacted the Biological Diversity Act, in 2002 with the overall goal of biodiversity conservation and sustainable utilization of biodiversity. The Government of Assam had introduced the Assam Biodiversity Rules, 2010 for implementation of the Act in Assam. Under Section 25 (16) of the Assam Biodiversity Rules 2010, each BMC is mandated to prepare a Biodiversity Management Plan (BMP), using output from People’s Biodiversity Registers. Under the Collaborative Biodiversity Management component of APFBC Phase II, 50 high priority lighthouse Biodiversity Management Committees (BMC)s have been selected for strengthening through capacity building, updation of Peoples Biodiversity Registers (PBR) and preparation and implementation of Biodiversity Management Plans (BMP).

The Biodiversity Management Plans include activities to be implemented in respective BMC areas for a five-year period, focusing on aspects of assessment and documentation of biodiversity, ecological restoration, capacity building, sustainable livelihood enhancement. Based on the priority and conservation values of respective areas, the ASBB has selected 30 BMPs for implementation of selected activities within the BMC areas. Based on the same, the proposed interventions under this tender consist of assessments of ecotourism potential in selected BMC areas, as well as conducting training on ecotourism and hospitality services to BMC members, as a sustainable livelihood enhancement option.

The ASBB therefore, invites bids from suitable agencies (hereafter referred to as “The Bidder”) to implement these activities in an effective and timebound manner.

Scope

The Bidder would undertake implementation of the selected activities, including ecotourism potential assessment and capacity building training on ecotourism and hospitality services, in specific BMC areas across the state. The work would be carried out under the guidance and supervision of the Assam State Biodiversity Board, and in close cooperation with the respective BMCs.

The detailed scope of work is as follows:

Scope of Work:

- I. The assessment of ecotourism potential would be carried out in 2 forest range areas in Karbi Anglong, consisting of **Dolamara Forest Range and Silonijan Forest Range**
- II. The assessment must cover aspects of existing natural and artificial (constricted) sites and attractions with ecotourism potential. The natural sites may include (but not limited to) wetlands/ rivers/ waterfalls/ forest areas while socio-cultural sites like temples/ sacred groves/ archaeological remains / parks/ recreation facilities may also be assessed, with analysis of existing facilities, tourism footfall and challenges for the area, for designing strategic recommendations.
- III. The assessments must be completed within **2 months** from date of contract signing. Upon the completion of the assessments, site wise reports (2 nos) with photographs must be submitted within the same timeline.
- IV. The training on ecotourism and hospitality management would be carried out in 3 areas, namely BMC areas in **Dolamara Forest Range (Karbi Anglong), Silonijan Forest Range (Karbi Anglong), MayongAnchalik Panchayat (Morigaon)**, with 20-30 participants targeted for each program. The list of participants shall be finalized and shared by the respective BMCs.
- V. In each of the target areas, the venue and other training logistics must be finalized in close coordination with the respective Biodiversity Management Committees (BMC).
- VI. The training modules must cover the following aspects:
 - a. General concepts of ecotourism, its different models
 - b. Ecotourism interpretation, nature guiding, behavioural aspects of tourist management
 - c. Ecotourism planning and management, pricing and packages
 - d. Facility management including homestays/ recreational facilities
- VII. The draft training module and training calendar must be submitted for client inputs and finalized based on the same, well in advance of conducting the training.
- VIII. Upon completion of the training programs, site- wise Training Reports (3 nos.) with photographs, details of the participants, feedback and recommendations must be submitted, within **3 months** of date of signing of contract.
